IUPAC Standards Online is a database built from IUPAC's standards and recommen-
dations, which are extracted from the journal *Pure and Applied Chemistry* (PAC).
The International Union of Pure and Applied Chemistry (IUPAC) is the organization
responsible for setting the standards in chemistry that are internationally binding
for scientists in industry and academia, patent lawyers, toxicologists, environmental
scientists, legislation, etc. "Standards" are definitions of terms, standard values,
procedures, rules for naming compounds and materials, names and properties of
elements in the periodic table, and many more. The database is the only product
that provides for the quick and easy search and retrieval of IUPAC's standards and
recommendations which until now have remained unsorted within the huge *Pure and
Applied Chemistry* archive.

Covered topics: Analytical Chemistry; Biochemistry; Chemical Safety; Data
Management; Education; Environmental Chemistry; Inorganic Chemistry; Materials;
Medicinal Chemistry; Nomenclature and Terminology; Nuclear Chemistry;
Organic Chemistry; Physical Chemistry; Theoretical & Computational Chemistry;
Toxicology.

The Bibliographia Judaica Archive – German Judaism Online:
A Biobibliographical Collection, 18th–20th Century

▸ An indispensable research tool for anyone working on German-Jewish history and culture

▸ An impressive archive of German-speaking Judaism and its written heritage

▸ Biographical data on more than 20,000 German-Jewish figures from all areas and walks of life including links to bibliographical information on 250,000 scanned index cards

▸ Contains the complete 21-volume *Encyclopedia of German-Jewish Authors* including extensive biographical information on 1,300 selected authors

▸ Includes figures from the 18th to 20th centuries with a focus on the late 19th century/first half of the 20th century

▸ Supplements the *German-Jewish Sources from Palestine/Israel, Vossische Zeitung and Klemperer Online* databases

▸ Non-restrictive DRM – allows for an unlimited number of simultaneous users campus / institution-wide

Since the Enlightenment, German-speaking Jews have built an impressive cultural heritage. But the persecution and extermination of the Jewish people during the Nazi era together with emigration since the 1930s destroyed, fragmented or scattered much of this extensive German-Jewish heritage. This database compiles and collects biobibliographical information on more than 20,000 German-speaking Jews who were leading figures in literature, philosophy, religion, art, music and politics.

Based on the Archiv Bibliographia Judaica in Frankfurt am Main founded by Renate Heuer, the database is a unique document of German-Jewish heritage. Users can search biographical information on over 20,000 individuals using precise criteria, as well as study their bibliographies on linked and scanned index cards. The complete database is intended to give a comprehensive overview of all of the writings or documents written by German-speaking Jews.

In addition, the database integrates even more detailed biographical and bibliographical information on 1,300 authors included in the printed *Lexikon deutsch-jüdischer Autoren* [Encyclopedia of German-Jewish Authors]. The database is the only resource to offer this information in a structured, searchable format.

An interface to open-access sources links the biobibliographical content to useful full texts.

- *CHOICE Outstanding Academic Title 2020* for the excellence of its scholarship and presentation and for its great significance to its field of research
- Contains Hebrew Bible/Old Testament, New Testament, and historical contexts
- Spans biblical reception in Judaism, Christianity, Islam, and other religions as well as in literature, visual arts, music, and film
- Approx. 1,500 new articles per year
- Non-restrictive DRM – allows for an unlimited number of simultaneous users per campus or institution

The *Encyclopedia of the Bible and Its Reception* is the first-ever and only comprehensive reference work on the Bible and its reception. Since 2009 and the publication of its initial entries, the encyclopedia continues to be a groundbreaking reference work and is a must-have for institutions in the humanities, social and cultural sciences, as well theology and religious studies. The encyclopedia contains the most current state of knowledge on the origins and development of the Bible in the canons within Judaism and Christianity. It documents the history of biblical reception, not only in Christian churches and the Jewish Diaspora, but also in Islam, other non-Western religious traditions and movements.

Unprecedented in breadth and scope, it innovates, however, by recording how biblical texts have been read, interpreted and integrated into thought, science and culture throughout the centuries. This reference is the pioneer which compiles the most recent scientific research on the reception of the Bible in an array of academic disciplines such as classical, literary and religious studies and archaeology as well as in cultural fields like literature, visual arts, music, film and dance. Its content is the result of an interdisciplinary approach which transcends a purely theological or religious perspective.

Edited by an international team of scholars, *EBR's* authors (currently nearly 4,000) work in over 50 countries. This ensures the international character of the entries and the up-to-date quality of the articles.

DEUTSCHE GESCHICHTE IM 20. JH.: TAGES-RAPPORTE DER GESTAPO WIEN. ONLINE

Tagesrapporte der Gestapoleitstelle Wien 1938–1945

▶ Unique source with information on almost 16,000 people (741 daily reports, 5,795 pages)
▶ The Gestapo headquarters in Vienna is the only one whose archive is almost completely preserved
▶ Previously unpublished, rarely used records on the politically motivated persecution of "public enemies"
▶ An ideal supplement to the situation and status reports from other parts of the "Reich"
▶ Non-restrictive DRM – allows for an unlimited number of simultaneous users campus / institution-wide

From 1934 on, the Gestapo Headquarters had to report all incidents to Berlin. These daily reports are a first rate source, barely used until now. Their purpose was to outline the mood, the political situation, and security conditions. The 741 reports (5,795 pp.) mirror in shocking complexity the focus of political persecution by the Gestapo and thus open the first chapter on the structure of Gestapo persecution, using the example of Vienna.

DIE TAGEBÜCHER VON JOSEPH GOEBBELS ONLINE

- The more than 6,000 diary entries by Joseph Goebbels (approx. 16,800 pages) form an outstanding contemporary source for the years 1923 to 1945
- For the first time the diaries can be searched electronically based on a subject index
- Further features: search by date, place and name
- "A once-in-a-century record of the failure of German idealism and of the triumph of an ideologically based contempt for mankind." (Elke Fröhlich)
- Non-restrictive DRM – allows for an unlimited number of simultaneous users campus/institution-wide

The database contains transcriptions of all handwritten documents from 1923 to July 1941, as well as subsequent writings that were dictated up to 1945. This edition is based on the reproduction of the entire diaries on glass microfiches that was discovered in 1992 by Elke Fröhlich in Moscow. For the first time, the database gives researchers the chance to access the diaries of Joseph Goebbels electronically using the valuable subject index.

HITLER. QUELLEN 1924–45 ONLINE

RSA-Edition – Hitler-Prozess – Domarus-Edition

- The database contains nearly 9,000 pages of the three original print editions
- Three key sources for Hitler research are now available in a single database that documents the full spectrum of Hitler's world-view
- Important features: the database can be searched by topic thanks to an integrated subject index; it is also searchable by date, place, name, and publication title
- "What makes the present edition so significant is not least the fact that it documents a critical stage not only in the formation of Hitler's own thinking but also in the transformation of the NSDAP into a Führer movement." (Ian Kershaw in the *Vierteljahrshefte für Zeitgeschichte*, commenting on the IfZ edition of "Speeches, Writings, Proclamations")
- Non-restrictive DRM – allows for an unlimited number of simultaneous users campus/institution-wide

Hitler's written legacy as contained in the database represents a unique source for studying Hitler's world-view and his political ambitions. The most important resource for the database is the edition *Hitler – Speeches, Writings, Proclamations (1925–33)*. In addition, the database contains the more than 1,700 documents from the Max Domarus edition. The source collection is supplemented by documentation of Hitler's trial for high treason in 1924.

DEUTSCH-JÜDISCHE QUELLEN AUS PALÄSTINA/ISRAEL

Bibliographie und ausgewählte Originalwerke (1890–2000)

- Top resource for everybody studying German-Jewish literature, history and culture, but also for students of the history of Zionism and Israel
- Ca. 1,500 bibliographic entries, of which ca. 250 of the most relevant and rare titles are linked to the original source in full text (ca. 25,000 pages)
- The unique collection represents the cultural and intellectual realm of the German speaking world in Israel/Palestine
- Texts by Schalom Ben-Chorin, David Ben-Gurion, Chajim Nachman Bialik, Max Brod, Constantin Brunner, Sammy Gronemann, Theodor Herzl, Georg Landauer and Else Lasker-Schüler
- Rare texts that document the political development and everyday life of Palestine/Israel
- Thematic search
- Non-restrictive DRM – allows for an unlimited number of simultaneous users campus/institution-wide

Palestine, and later Israel, has been of foremost importance for German-Jewish immigration. Famous texts by major writers, including Else Lasker-Schüler, Sammy Groneman and Shalom Ben-Chorin, were published in Palestine, not in Germany. The electronic resource contains writings of all genres which can be searched by category (e.g. history). The bibliography records approximately 1,500 entries, of which approx. 250 are linked to their full texts.

PUBLISHER PARTNER
PROGRAM

OUR PARTNERSHIP

In 2012, De Gruyter launched the Publisher Partner Program, initially signing Harvard University Press, which has now expanded and internationalized to include more than 30 partners. These leading academic publishers and De Gruyter share a common mission: to promote the publishing of premium, scholarly monographs in an increasingly difficult financial landscape, and to support scholars in reaching the right audience for their research.

This international partnership promotes the distribution of high-level, scholarly literature in more than 20 key subject areas. Each partner's unique content has been integrated into De Gruyter's online platform and is accessible from anywhere in the world. Nearly 60,000 eBooks, as well as selected eJournals are now available on the De Gruyter platform, covering frontlist, backlist, and previously hard-to-find archive titles. De Gruyter is proud to disseminate research while partnering with the following presses:

Academic Studies Press | Amsterdam University Press | Columbia University Press | Cornell University Press | DETAIL | Duke University Press | Fordham University Press | Gorgias Press | Gütersloher Verlagshaus | Harvard University Press | Iberoamericana Vervuert | ISEAS Publishing | Multilingual Matters | NYU Press | Princeton University Press | EDP Sciences | Rutgers University Press | RWS Verlag | Stanford University Press | transcript Verlag | University of California Press | University of Chicago Press | University of Pennsylvania Press | University of Hawai'i Press | University of Toronto Press | Verlag Dr. Otto Schmidt | Vincentz Network | Yale University Press | University of Texas Press | Penn State University Press

EVIDENCE BASED ACQUISITION

‣ Unlimited access to outstanding research
‣ Purchase decisions based on usage data

WHAT ARE THE ADVANTAGES OF THE DE GRUYTER EBA MODEL?

Evidence Based Acquisition (EBA) is an effective way to build your library collection based on usage data. The advantage of our model? The library is in control of making the decisions.

‣ Get 12-month access to all eBooks on the De Gruyter platform or to a sub-set in one of our attractive packages. The library decides which titles to select for perpetual access at the end of the 12-month period.

‣ As always, you benefit from the liberal DRM (multi-user, remote access). In addition to the standard PDF versions, you also receive all available ePUB versions.

‣ A complete EBA package offers unlimited access to the De Gruyter eBook portfolio and all De Gruyter imprints such as Mouton and Oldenbourg. We also include all the eBooks we offer from our Publisher Partners, including content uniquely available from Columbia University Press and Harvard University Press.

‣ New publications will be added to your EBA access automatically, at no additional cost.

‣ We aim to keep data management effortless. We offer:
   – monthly tailored MARC records
   – a dedicated MARC record contact
   – KBART files
   – targets with discovery partners
   – monthly COUNTER usage reports

‣ An enhanced usage report is provided at the end of the EBA period for making title selection easy

HOW DOES OUR EBA WORK?

1. SELECT A PACKAGE

2. EBA PHASE

3. TITLE SELECTION

EBA eBook packages available:

‣ Complete Package

‣ HSS Package

‣ English only Package

‣ STM Package

‣ Access to the EBA package activated

‣ Selected metadata provided/ De Gruyter EBA collections are available for all discovery services

‣ If required, tailored MARC records emailed every month

‣ Newly published titles in your package automatically available

‣ Unlimited, multi-user access available for the full 12 months

‣ Monthly COUNTER usage reports available

‣ Enhanced usage report with title prices provided after the full 12 months' usage is available

‣ Select titles to keep in perpetual access to value of your EBA fee

‣ Title selections to be made within 90 days after the end of the EBA phase
