

Enhancing Your Workflow

Our solutions streamline your decision-making and collaboration through:

Simplification:

- ✓ Explore alternatives with ease
- ✓ Compare material properties efficiently
- ✓ Select suitable materials confidently
- ✓ Identify equivalent resources quickly

Collaboration & Compliance:

- ✓ Share insights effortlessly
 - ✓ Report with streamlined processes
 - ✓ Integrate seamlessly with CAD/CAE
 - ✓ Ensure regulatory standards are met
 - ✓ Optimize your processes and productivity
- with our innovative solution

TMM Total Materia®

Where Material Information Meets Design, Innovation and Sustainability

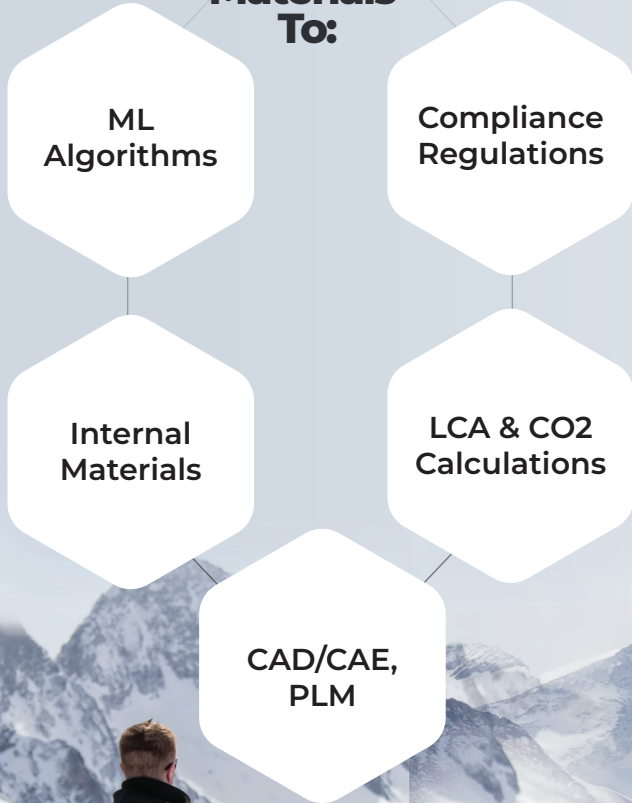

TMM Total Materia®

Total Materia®
Horizon

The Ultimate Resource
for Material Information
and Selection

- Advanced Material Selection and Analysis
- Global Material Equivalency
- Export to CAD/CAE tools

Total Materia®
Integrator

Turnkey Enterprise
Solution for Materials
Information Management

- Enterprise-Wide Data Integration
- Advanced API Connectivity
- Streamlined Approval Workflows

Total Materia®
Predictor

Material Property
Modeling and
Prediction using ML.

- AI-Optimized Material Selection Process
- Comprehensive Property Prediction
- Over 90% Prediction Accuracy

Total Materia®
Green Line

Securing Confidence
in Materials' Compliance
and Sustainability.

- LCA and CO2 Calculations
- Regulatory Compliance Assurance
- BOM-Integrated Recall Mitigation
